Luna Piena Floor Lamp 2

A constellation of crystal flakes is engraved into round panels of light, reflecting and refracting its beams like precious jewels on a cloudless day. Facing the disks is like looking into the full moon, a limpid surface of brightness, while pure magic occurs if you turn the lamp's panels away from you. As you do so more crystals appear and multiply.

Recommended dimmer 0-10V dimmable

For fluent dimming behaviour we advise a dimmer that is compatible with the following specs:

Transformer type: Electronic Low Voltage (ELV) 0-10V Dim

Load type: Capacitive load (C-Type)

Dimmer type: 0-10V dimmable

Please note the functioning of the dimmer and the power supply combination can never be predicted, it always needs to be tested in practice.
