Coral Staghorn

REFERENCE CT3393/4

DESCRIPTION

Inspired by the beauty and natural complexity of coral reef shapes, the Coral Collection stands as a dense structure of intertwined metal branches aiming for a faithful representation of its nature and visual impact. The glass pieces fall into the glimpse of marine organisms in a visual combination of great impression. Dense and robust, this collection integrates a complex system of detail aiming for a differential presence. Ideal for areas of extensive height and open for complex patterned details.

Finish shown here Metal FP | Glass 10+21+27

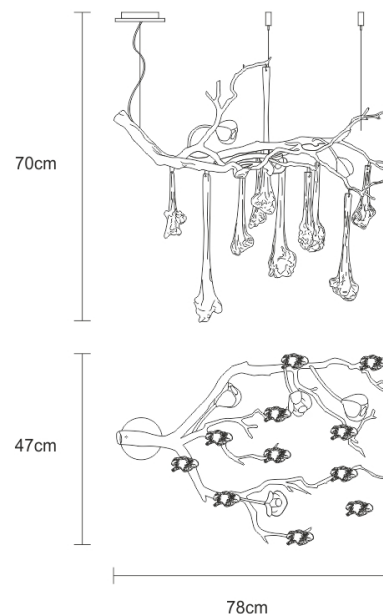

Designed and produced by hand in Portugal.

Serip reserves the right to make changes or improvements at any time it deems useful to guarantee the highest quality standards for its products.

Hand-finished, some variations may occur.

All the glass models are designed by Serip and exclusively handmade produced, establishing a unique and prestigious feature of the glass handwork art. For this reason, there is the possibility of variation in measures, weight, colour and shape represented.
