

Mondrian Coastline Medium

REFERENCE AP1494/3

DESCRIPTION

Inspired by the unique life of the desert sands, the Mondrian collection is a simple dedication to Piet Mondrian, a Dutch painter known for the Neoplasticism movement, who advocated a total spatial cleaning for painting, reducing it to its purest elements and seeking its personal characteristics. The patterns on each piece are directly related to the lines resulting from the wind touching the sand. The modular concept of the collection resembles the artist's characteristic grid, where light compositions achieve a sense of artistic installation. Ideal for compositions of walls and ceilings in modern and contemporary areas.
