

## Mondrian Suspension Coastline Small

REFERENCE CT3398/1

### DESCRIPTION

Inspired by the unique view of the desert sands. The Mondrian collection is a dedication to the prestigious Dutch painter Piet Mondrian who defended abstraction as a universal language, reducing form and color to its essences. The pattern evident in each piece of the Mondrian collection refers to the shape of the lines that result from the wind touching the sand, and the combination of shapes that resembles the artist's signature. With a modular concept, the design of the collection falls into the category of pieces with an artistic presence, where light compositions achieve an artistic sense of installation. This smaller size piece is also perfect for hallways, hospitality or even as bedside lamps.
