Niagara Meander

REFERENCE CT3378/38/A+A

DESCRIPTION

Inspired by the Niagara falls magnificence, this collection embraces the tenacious and raw side of nature, with a very close visual density of its inspirational waterfall through the glass pieces. The solid glass presence represents the untamed motion of water shaped, completed with organic patterns in a game of transparency and opacity, a characteristic that counteracts inertia and enhances movement. The metal structure follows the main concept with vines in a never ending fluid motion. Ideal for horizontal displays of contemporary style interiors.

Finish shown here Metal FP | Glass 10

Designed and produced by hand in Portugal.

Serip reserves the right to make changes or improvements at any time it deems useful to guarantee the highest quality standards for its products.

Hand-finished, some variations may occur.

All the glass models are designed by Serip and exclusively handmade produced, establishing a unique and prestigious feature of the glass handwork art. For this reason, there is the possibility of variation in measures, weight, colour and shape represented.
