

Waterfall Segmented Double

REFERENCE AP1443/2

DESCRIPTION

Inspired by the movement of the flow of a waterfall that has an intrinsic verticality, the Waterfall collection plays with the duality of visually dense glass pieces and the minimalism of its bronze structure. The glasses in the collection are presented as fragments of water suspended and immobilized, and there are a wide variety of chromatic options, a feature that combined with the different colour finishes that can be applied to bronze makes it possible to combine decorative elements of various shades with a magnanimity that collection can bring to a space.

CARE INSTRUCTIONS

Due to the nature of our exquisite hand applied finishes, wipe clean with a soft, dry cloth or static duster must be used to clean the fixture.

Always avoid the use of harsh chemicals or abrasive cleaners as they may cause damage to the fixture's finish.

Cleaning is limited to the outer surfaces, shades or glass. It is important to ensure that no moisture enters the terminal compartment or reaches any live parts.

As our products are subject to technical modifications, we cannot guarantee, that all information is always up to date. Please contact our [technical department](#) with any queries.
