Reference 0315.

Application Hanging lamps

Installation type Surface

Description

Wireflow designed by Arik Levy. A hanging lamp which reviews and updates the chandelier look through an exercise of simplification that explores its essence and enhances its outline with great delicacy and at the same time a strong formal presence. Its appearance, as a structure of fine cables finished with twenty LED terminals, discretely connects with classic chandelier models, taking this type of lamp to a new, groundbreaking and futuristic dimension. Employing CREA product configurator software, the design can be modified to adapt to your specific project requirements.

Diffuser

Pressed-glass diffuser

Materials

Diffuser: Pressed Glass Body: Aluminum Horizontal rods: Steel Ceiling rose: Steel

0315-04 Black lacquer (RAL 9005)
