Description

RHYTHM, a pendant capable of adopting infinite horizontal and vertical configurations. A design that is at once both rational and disruptive. This luminaire is composed of stick-like modules with frosted lens and LED arrays. Each module can rotate on its axis, be positioned and then fixed in place at the desired angle, adopting a wealth of combinations and looks: from soft waves to chaotic shapes. Finished in a matte off-white lacquer or matte chocolate brown. Infinite visions, infinite compositions.
